

Daily Incident Briefing report

18/08/2025

Burundi

Construction begins on railway connecting Burundi and Tanzania

The construction work for the 282-kilometre standard gauge railway connecting Burundi and Tanzania was launched on 16 August. The USD 2.15 million railway network will connect Unvinza in Tanzania to Musongati in Burundi, and is expected to be completed by 2030. The railway will be constructed by the China Railway Group Limited, and will form part of the Central Corridor – a strategic trade route connecting inland countries to the Port of Dar es Salaam. Presently, cargo trucks take up to 96 hours to reach Bujumbura from Dar es Salaam; the railway is expected to reduce this journey by 20 hours. Once completed, the railway will improve connectivity between Tanzania and Burundi, to the particular benefit of the landlocked Burundian economy.
